

# Canvas-Teams

## Online & Blended Learning Enabled

One fully automated solution that will transform your  
online delivery during the current pandemic and beyond.

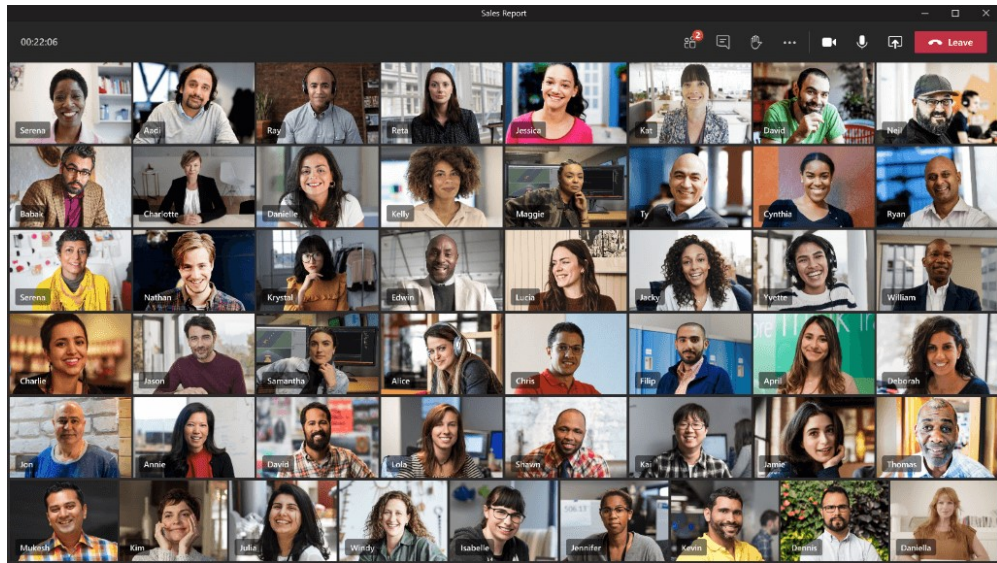

## THE SOLUTION THAT DELIVERS ONLINE & BLENDED LEARNING EFFORTLESSLY

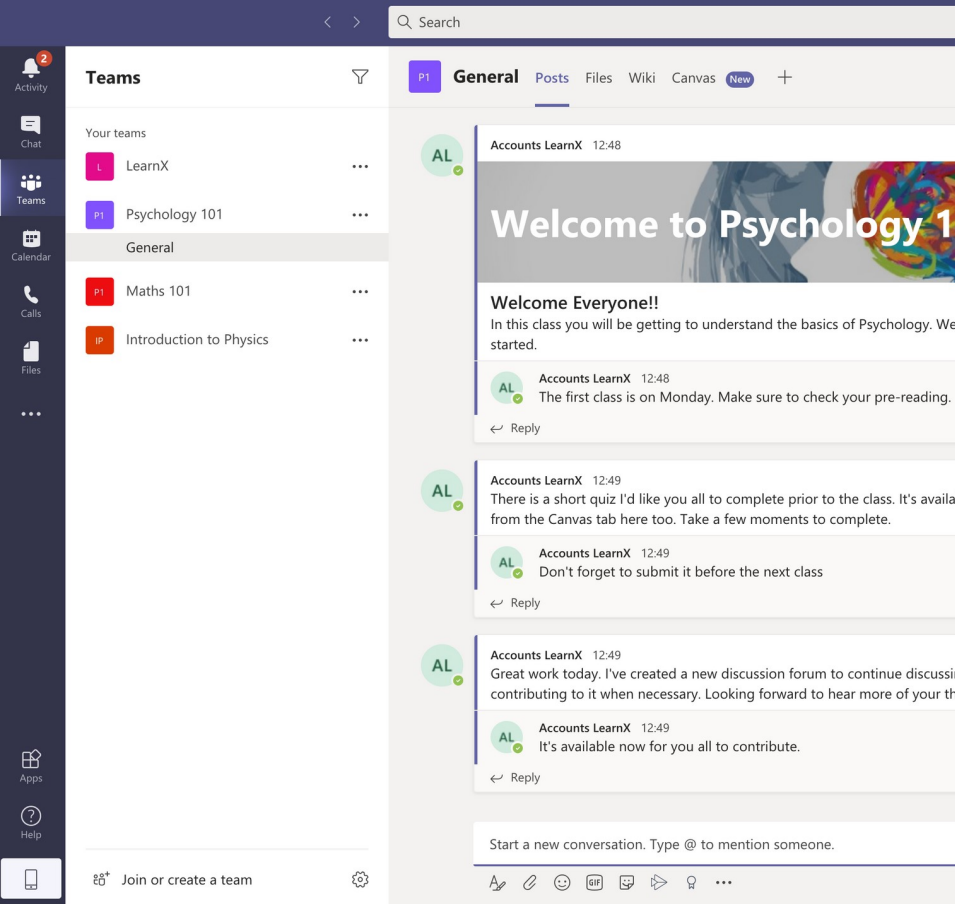

This is an extraordinary time for learning. Schools and Educators are working around the clock having to manage multiple spaces to provide the best learning experience to the students.

Microsoft Teams offers a range of exciting features to facilitate meetings, chats, classes, project-based learning, group projects, etc. Tightly linked with Canvas, it provides Educators and Students with the perfect platform to teach & learn.

Our tight, robust and fully automated solution takes away all the pain from Admins, Educators and Students and enables online and blended learning environments where everyone can simply focus on learning.

# FULLY AUTOMATED

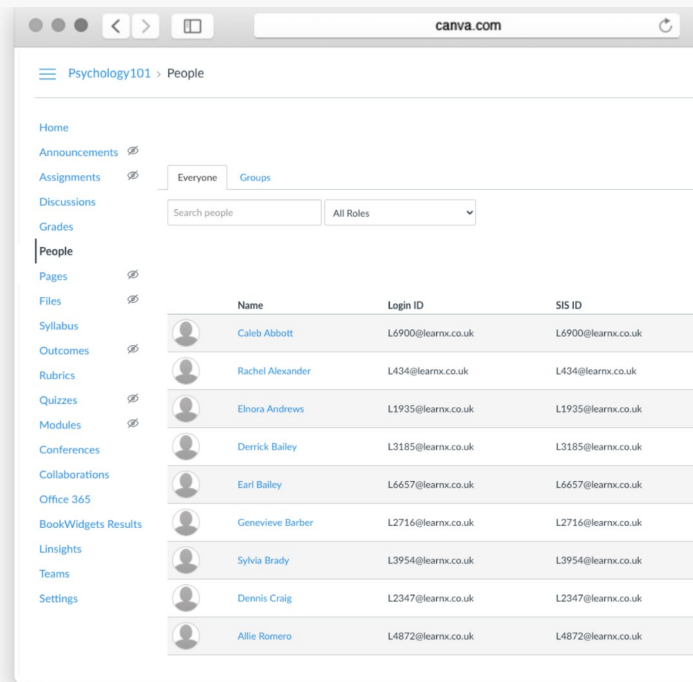

# AUTOMATIC CREATION OF TEAMS SITES FOR EVERY CANVAS COURSE

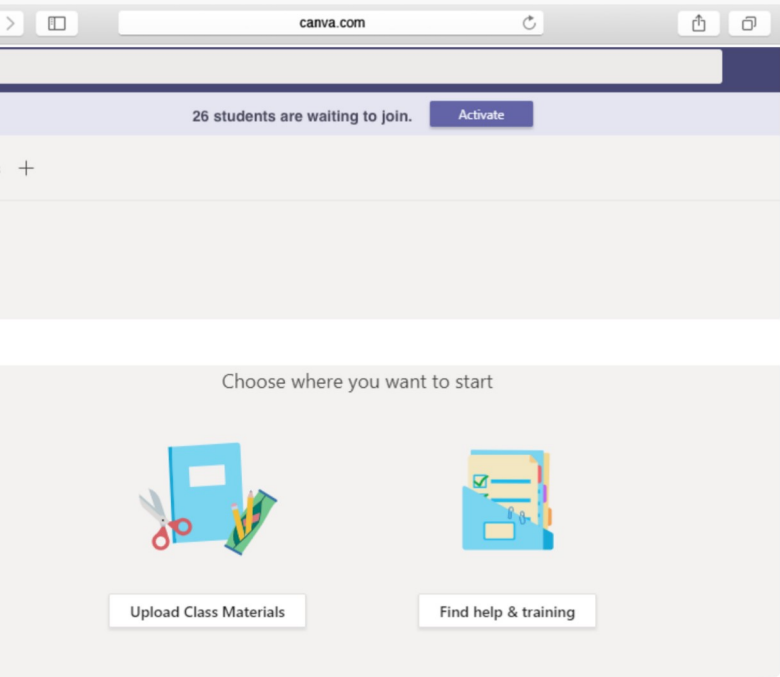

An increasing number of K-12 and higher ed classrooms are using both Canvas and Teams not just for Teams meetings, but the full Teams app. With a Teams site for every Canvas course, Educators can use Teams for meetings, chats, project-based learning, group projects, and more.

# Full Sync of Teams Memberships

## AUTOMATIC MANAGEMENT OF ENROLMENT INTO TEAMS SITES

The solution automatically synchronises the memberships from the Canvas courses into Teams sites. Teachers and assistants become owners of the Teams sites and can make changes to site settings.

# Total Control of Teams Sites

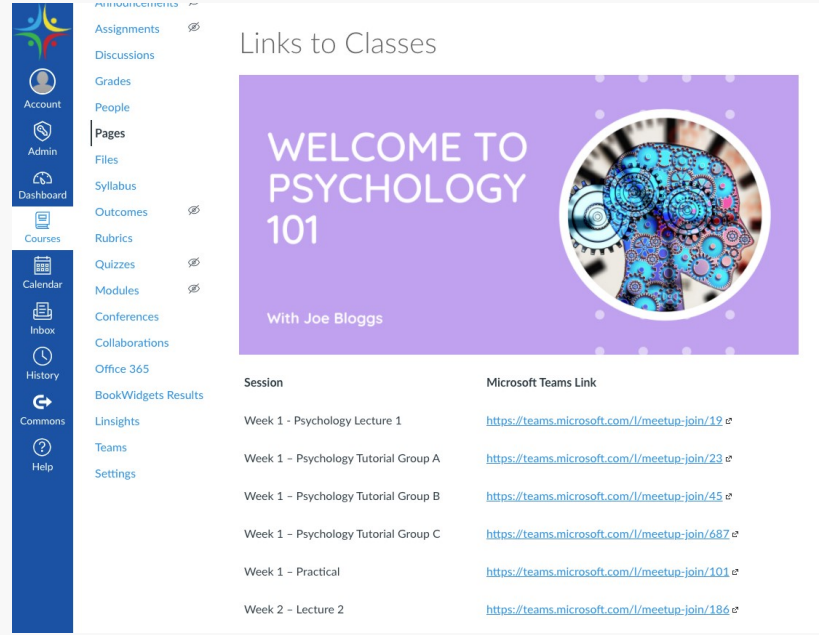

## TEACHERS CHOOSE IF AND WHEN TO USE THE TEAMS SITE

The Teams site is only available for students to access if the teacher chooses to do so. If the teams site isn't required for a specific course then the students will have no visibility or access to the site. Sites can be activated by default if required by the school.

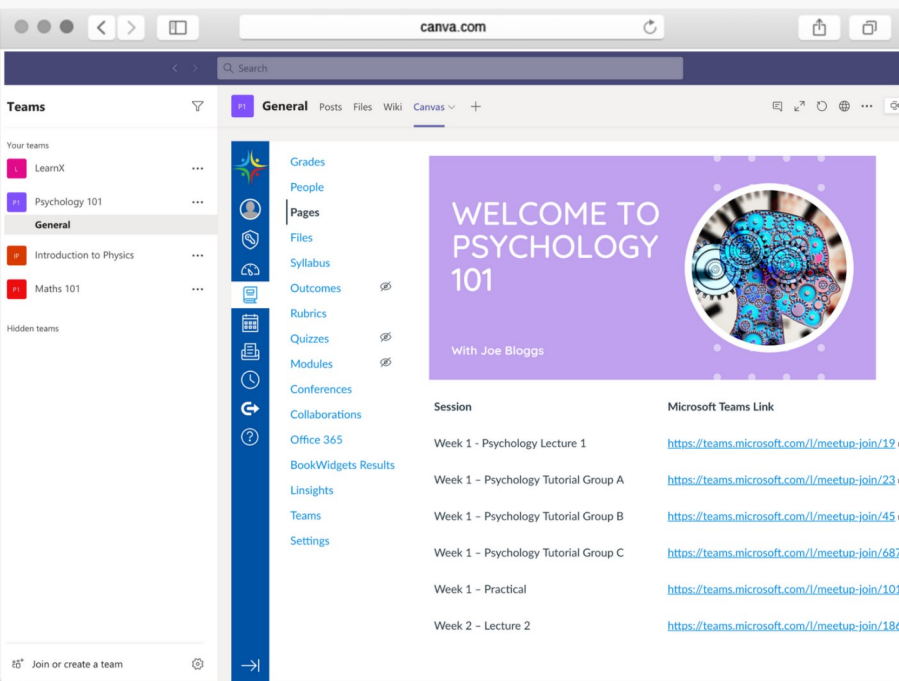

# Meeting Links for All Sessions (Optional Extra)

## AUTOMATIC CREATION OF TEAMS MEETINGS FOR CLASSES

The integration automatically creates Teams Meetings for all sessions and adds the links to the meetings in a dedicated page in Canvas so Educators and Students can easily find and access their class.

Session	Microsoft Teams Link
Week 1 - Psychology Lecture 1	<a href="https://teams.microsoft.com/l/meetup-join/19">https://teams.microsoft.com/l/meetup-join/19</a>
Week 1 - Psychology Tutorial Group A	<a href="https://teams.microsoft.com/l/meetup-join/23">https://teams.microsoft.com/l/meetup-join/23</a>
Week 1 - Psychology Tutorial Group B	<a href="https://teams.microsoft.com/l/meetup-join/45">https://teams.microsoft.com/l/meetup-join/45</a>
Week 1 - Psychology Tutorial Group C	<a href="https://teams.microsoft.com/l/meetup-join/687">https://teams.microsoft.com/l/meetup-join/687</a>
Week 1 - Practical	<a href="https://teams.microsoft.com/l/meetup-join/101">https://teams.microsoft.com/l/meetup-join/101</a>
Week 2 - Lecture 2	<a href="https://teams.microsoft.com/l/meetup-join/186">https://teams.microsoft.com/l/meetup-join/186</a>

# Access Canvas Content within the Teams Site

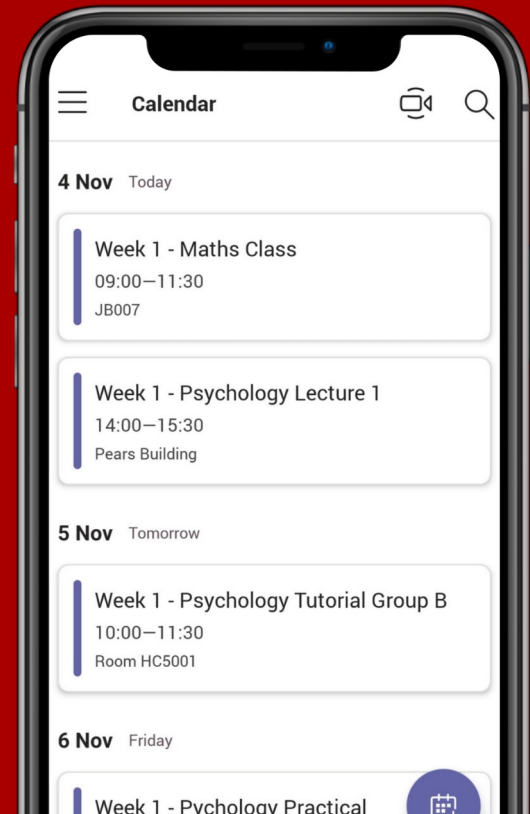

**CANVAS COURSE CONTENT IS AVAILABLE FROM MICROSOFT TEAMS**

Educators and Students can access the Canvas Course from the corresponding Microsoft Teams site so they can easily have access to their materials without having to move between applications.

# OPTIONAL EXTRAS

Automatic creation of Teams meetings  
for classes

Automatic creation of calendar events  
in canvas course with the Teams  
meeting link

# WHAT IS INCLUDED

Full End-to-End Implementation
