

2 Due Date Workaround for Discussion Boards

The goal of this workaround is to have the student

1. Submit his first post.
2. After submitting first post, student completes T / F by clicking yes I completed my first post.
3. After completing T / F quiz the grade is entered into the gradebook
4. The discussion board remains open to the student so they can complete the second post by the due date.

This is what the Module looks like in the Student view because there is a sequential prerequisite
