Canvas for Elementary Interface

If you are using the new Canvas for Elementary interface, the “Image” you upload into the **Course Settings > Course Details** will be the image used for the course’s **homepage banner** located at the top of the welcome page. It will also auto-crop the center of the image to be used as the **course card**.

- Check out the [Elementary Theme Course Banner Sizes](#) post on the Canvas for Elementary Forum for more information!
- Be sure to check out the FREE Resource, [Canvas for Elementary | Course Card/Banners](#) from the Instructional Design team, you can import from Commons directly into your course!

It will also auto-crop to a square thumbnail for the Student’s **Grades** view from their Dashboard:
