

# Powering Up Your Canvas Course, Part 9

Beginner

## Search the Canvas Guides

If you want to dig deeper in how to use Canvas, check out the Canvas Guides. There is help for every tool in Canvas from an instructor's point of view and from a student's point of view. When asking students to do something new in Canvas, you can use the links in the Student Guides and add them in the assignment descriptions.

## Use the Scheduler

If you would like students to make appointments to see you or sign up for an after school tutorial, you can use the Scheduler in the Calendar. You can set the appointment date and time range. You can also limit how many users can sign up for a particular time slot.

## Know the Quiz Options

Canvas quizzes have several options including setting a time limit, giving users multiple attempts, allowing users to either see the quiz answers or set a date for answers to be revealed. You can also shuffle multiple choice answer choices.
