Sketchfab.com/[model]	Shows Link – with Image Preview
Medium.com/[article]	Shows Link – with Image Preview
H5P	Shows Link – with Image Preview
Badgr.io Badge URL	Shows Link – with Image Preview (Use Profile Settings to Import Data from Badgr.)
LinkedIn Profile URL	Not Supported. (Use Profiles Settings to Add LinkedIn profile.)

**NOTES:** All original uploaded files, can be downloaded even if converted for Project View. For PDFs, some media embeds work only if they have URL link alternative. Projects with many different file types or links may take longer to load as the Project Viewer will load all supporting files and play-back scripts needed at the same time.

### Embed Media: Videos, Prezi, Soundcloud, SlideShare, etc.

# Portfolium Profile and Projects

---

## Project Description

Portfolium uses a customized version of [Markdown](#) for formatting. (<https://daringfireball.net/>)  
<https://help.portfolium.com/portfolium/projects/add-a-link>

This is limited to URL link embedding only. No other Markdown is supported.

## Profile Settings:

The best way to link too many social profiles is directly in your profile found under **Me > Settings**

### **Profile > Username:**

Update username to create a custom URL:

<https://portfolium.com/BlinkyBill>

### **Profile > Birthday**

Changes to Profile will require updating your Birthday with something.

It's recommended not to use your real birthday.

### **Profile > Social URLs Supported:**

Facebook URL

Instagram URL

LinkedIn URL

GitHub URL

Personal URL (Your own web site.)

### **Email:**

Use the [ADD NEW EMAIL] option to add a personal email address.

### **Connected Apps:**

Allows you to share project with other services: Facebook, LinkedIn, Twitter.

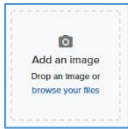

Allows you to import content from other services: Badgr, Credly, Google.

# Portfolium Profile and Projects

---

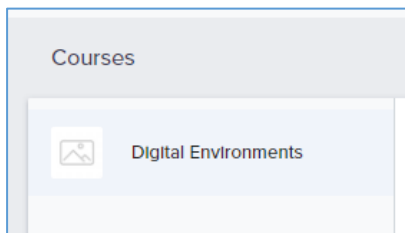

## Additional Profile Elements.

When adding **Accomplishments**, **Certifications** or **Athletics**; use relative images or icons to make your profile more exciting. Adding these items without images can look strange as Portfolium will often show a placeholder image instead. (**Resumes** do not have an image option.)

Please take note of copyright licences when doing so.

Course item without Image:

Clubs item with image:
